

MOUNTVIEW UCA – MOWING ROSTER

SEPT 2020 – AUGUST 2021

The roster is based on average four turns each over twelve months. If you are not available to take your turn, please arrange a swap with another person on the roster.

The push mower, edger and blower and instructions for using the equipment are kept in the end bay of the main hall (road side). The batteries and charger are in the office. If using the mower catcher, place grass clippings in the green garden bins located next to the shed.

Use the key previously provided for entry to the office, and obtain the under bay and shed key from the key safe.

Pre-arrange with your mowing partner who will do either Area 1 (front of church complex & nature strips) or Area 2 (quadrangle, Centre 81) and at what time.

Your assistance in maintaining our Church grounds is greatly appreciated by all members and the wider community.
Any problems please contact me.
